

Deacon Mark Arnold,

Thanks for taking the time to meet this morning to discuss EPA's Community Liaison activities in response to Hurricane Harvey. As we discussed, the EPA (and some of our Federal and State partners) have fact sheets which may be helpful to community members who are dealing with the impacts of Hurricane Harvey. Specifically, there are 17 English fact sheets and seven Spanish facts (attached). Please feel free to forward these facts sheets as you wish.

Unfortunately, I do not have any fact sheets in Vietnamese at this time.

As we discussed, EPA has three Community Liaison teams; the Alpha, Bravo, and Charlie teams.

I am the current Community Liaison Co-Lead for the Alpha team which includes the following counties: Aransas, Bee, Calhoun, Dewitt, Goliad, Gonzales, Jackson, Jim Wells, Karnes, Kennedy, Kleberg, Lavaca, Live Oak, Nueces, San Patricio, Refugio, Rockport, and Victoria.

The current Community Liaison Co-Lead for the Bravo team is Sam Tates and this team was assigned the following counties: Austin, Bastrop, Brazoria, Chambers, Colorado, Fayette, Fort Bend, Galveston, Harris, Lee, Liberty, Matagorda, Montgomery, Walker, and Wharton.

The current Community Liaison Co-Lead for the Charlie team is Mitty Mohan and her team was assigned the following counties: Beaumont, Hardin, Jasper, Jefferson, Newton, Orange, and Port Arthur.

Please feel free to contact me if you have any questions.

Sincerely,

Chris Villarreal  
EPA Community Liaison Co-Lead  
Alpha Team
